

INTRODUCING OUR S2C the SCADA to CLOUD MONITORING SYSTEM THAT IS COST EFFECTIVE

We're excited to introduce our custom engineered S2C Monitoring System. Crafted with the details for your site needs. Whether for your lift station or water tower it offers the perfect mix of selective monitoring with the reliability of service when you need it.

www.RangeData.net

WHY RDI?

Our S2C is built from the highest quality components known:

- **Durability:** Operational temperature ranges from -40°F to 165 °F. creating a long-lasting product even in the harshest climates.
- **Reliability:** Built for tough solutions. It has a Lifetime Warranty.
- **Quality:** Made in America!

The S2C options exceed any competitors equipment for its size. Its expandable to meet your needs.

A Veteran Owned Company

COMPANY OVERVIEW

For years, Range Data Inc. products are known for delivering high-quality, custom-engineered products, built with precision and care; ensuring excellence in every detail. Available through trusted dealers, each S2C reflects the engineering and values that define our company.

“I can attest that RDI’s TankVitals Solutions is by far an option that can’t be beat!”

Nicholas Martin, City of Stanley ,WI
